Great understanding of content, encouraged class discussion, clear slides conveying important information, and overall a very helpful teacher.

I really enjoyed this class, and the professor was a very effective teacher. She made sure that all the students clearly understood the material being taught and encourages students to ask questions.

I enjoyed and learned a great deal from Professor Mehmetaj's lectures. She is also extremely willing to give additional help outside of the classroom. Overall an excellent professor.

Young instructor, possibly her first class? Started off a bit shaky, but she found her style quickly, overall she was a very upbeat and thorough professor.

I really thought this instructor did a nice job. She was always willing to help and she really engaged the students in class. She helped us really grasp the material. Econ is a boring subject for me, but she helped me understand it and it wasn't bad at all. So I thank her for that.

She was a great teacher and I really enjoyed her teaching style, because of her I will most likely end up with an A in the class

The instructor did a very good job and really took the time to explain everything.

I really enjoyed her teaching and i thought she did well with the fact that it was 8am. we were not always the most lively group but sh also had a smile on her face and was energetic.

Professor Mehmetaj is a very friendly professor and is always willing to help a student in need. She does a great job presenting the material and offering examples. She prepares the students well prior to the exams by going over the problem sets and answering any last questions. Thank you for a great term in Macroeconomics, good luck with your research and PhD!

Enjoyed the way the class was structured. Thanks for being such a wonderful teacher!

She had great examples in class but I feel it was too much focus on the US economy.

---

I liked the amount of questions asked to students, helped to stay focused.. thanks!
